

# MenloSystems News and Insights

Menlo Systems invites you to stay informed about our latest product innovations, customer applications, and upcoming company events.

## Application Note

### Neuroscience: In-vivo all-optical interrogation of neural networks

Learn how UCL scientists use Menlo Systems' BlueCut microjoule femtosecond laser and Thorlabs' Bergamo multiphoton microscope to interrogate and manipulate neuronal communication

## Events

### 9th Frequency Comb Seminar

Read about comments from participants in this year's frequency comb seminar at Menlo Systems.

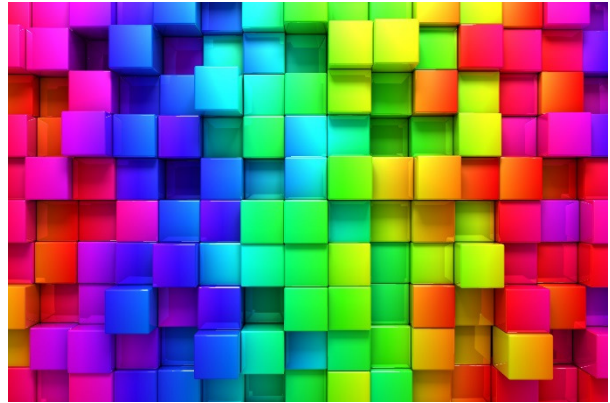

[Contact us](#) to receive more information about the seminar and notification about the next event.

## Career

# Sales Engineer Terahertz Systems

We have an open position in our team for a sales engineer focusing on sales and distribution of terahertz systems.

## Featured Products

### BlueCut Microjoule Femtosecond Laser

Ytterbium fiber laser system:

Wavelength: 1030 nm  
Pulse energy: >10  $\mu$ J  
Pulse duration: <400 fs

### SmartComb Compact Optical Frequency Comb

Comb spacing: 100 MHz  
Accuracy:  $10^{-14}$  (in 120 s)  
Stability:  $5 \times 10^{-13}$  (in 1 s)  
Center wavelength: 1550 nm  
Spectral width: >25 nm  
Additional wavelengths: 780/1064/633 nm
